Sheila Lawrence  
Director

November 17, 2009

Dear San Leandro Family,

Through the generosity of our local business partners Energy Recovery Inc. (ERI) and Davis Street Family Resource Center, the families of the San Leandro Unified School District will once again be offered the H1N1 Flu vaccination. Please see the dates and times listed below:

All vaccinations will be given at **Davis Street Family Resource Center, 3081 Teagarden Street.**

Wednesday	11/18	2:30-7pm
Thursday	11/19	3:30 -7pm
Friday	11/20	3:30 - 5:30pm
Monday	11/23	3:30-7pm
Tuesday	11/24	3:30-7pm (if we still have product)

We have approximately 500 doses remaining, so we encourage those who are at highest risk of complications from exposure to the H1N1 virus and young children to get this free vaccination.

**Children ages 6 months- 9 years will need a second dose of the vaccine in 3-4 weeks (>21 days) after their initial vaccination.**

If your son or daughter is 9 years old or younger and received a vaccination during any of the clinics that we offered in October or earlier this month, they would be eligible to receive the required second vaccination during one of the times listed above. Please bring your immunization card with you.

The Alameda County Public Health Department will also host a free H1N1 Vaccination Clinic in San Leandro on Saturday, December 5, at City Hall at 9:00am.

If you have any further questions or concerns regarding the H1N1 vaccinations, please contact the SLUSD Health Services at 667-3551.

Sincerely,

Sheila Lawrence
